ColorCork Specifications

- ColorCork is made from pure, granulated cork and natural ingredients that are combined under heat and pressure to create a smooth, suede-like surface of exceptional durability.
- ColorCork is washable, tackable and reseals itself after push-pins are removed. The cork naturally inhibits bacterial growth and is environmentally friendly with no toxins or harmful by-products or emissions.
- The ColorCork surface does not crack, peel or crumble and has low light reflectance.
- Meets ASTM E-84, class B and NFPA 253, Class II.

Samples available on request via Forbo Linoleum, Inc., 800-842-7839 x 712.

3. COM - Customer's Own Material

Optional COM - Customer's Own Materials are available on most tackable panels.

Shipping Instructions for COM

When ordering material, customer must have supplier of material mark the following information on the outside of the package.

1. Buyer's name.
2. Purchase Order Number to PPP.
3. Purchase Order date.
4. Work Order Number material is to cover.
5. Quantity and model number(s) material is to cover.
6. *Specify fabric direction: conventional or railroad.*

All materials to be shipped FREIGHT PREPAID to:

Peter Pepper Products, Inc., 17929 S. Susana Road, Compton, CA 90221.

Responsibility for COM shipments:

- We cannot be held responsible for performance of COM covering materials, nor shall we be held responsible for yields or variations in tone or weaving.
- All responsibility for COM shipments is between the buyer and the source.

WCM
Master Clock

2.1

The SyncTech® Wireless Synchronized Clock System uses a single master clock, equipped with either an NTP, GPS or CDMA receiver. The system obtains and transmits the correct US Time Standard to an unlimited number of secondary clocks, throughout a facility or an entire campus. This system eliminates potential liabilities from inaccurate, independently set clocks and eliminates manual standard to daylight time changes. Emergency Mass Notification options may be added to these Master Clocks to instantly notify the occupants of an entire facility. (See page 24 or peterpepper.com links below.)

2.1

Standard clock faces are white or black as shown.

Corporate logos and custom face designs available in contract quantities. Please submit your requirements.

Authorized personnel can activate emergency messages from any computer, telephone or cell phone

2.1

The SyncTech® Emergency Mass Notification (EMN) will instantly send text and/or audio messages throughout a facility or across an entire campus in a matter of seconds, and not minutes.

Now the same emergency messages through the University's emergency dialing software can also be delivered to your entire facility utilizing the SyncTech® Wireless Emergency Mass Notification (EMN) System. Using the latest text-to-speech technology from AT&T, the SyncTech® system will send out alpha-numeric messages to all Wireless Message Displays, Wireless Speakers and Outdoor Broadcast Systems. To reduce costs, our system can be integrated into most PA and Fire Panel systems and utilize existing speakers, or combinations of both.

How does it work? SyncTech® EMN Software ties into the URL that broadcasts the RSS feed supplied by the paging software. When an alert is sent from the paging software, the SyncTech® EMN Software automatically sends out an audio alert to all SyncTech® speakers and a text alert to all SyncTech® message displays.

When an "all clear" is sent from the paging software, the SyncTech® EMN Software automatically changes the message displays back to time.

See www.peterpepper.com/emn/ for additional information and products.

Benefits of Wireless Emergency Notification

- Uses a FCC Licensed frequency not accessible to the general public.
- Audio and Visual notifications in the event of an emergency.
- NFPA 72 recommended Amber strobe lights on indoor speakers and moving message boards.
- Over 60 professionally recorded emergency announcements to choose from.
- Easily integrates into more fire control panels to utilize system speakers.
- Up to 15 pre-recorded emergency messages that provide calm, concise announcements.
- Make live emergency announcements from any telephone, cell phone or SyncTech® master control PC.
- Text to speech technology using AT&T Natural Voices Software.
- Ability to have back up master transmitter in the event of a catastrophic failure at the primary location.
- Plus and Play components for easy installation and expansion.
- Ability to divide facility or campus into 255 separate zones.
- Synchronized time for your entire facility or campus.

Finishes

PPP Color

PPP Metallic

Aggregate Color

Aggregate Finish: Polished (Smooth) or
Exposed (Rough)

All Fiberglass products are shipped FOB Toronto, Canada.

Freight Class 100.

Fiberglass Specifications

- Products are made with multiple layers of random chopped fiberglass in conjunction with thermosetting polyester resins.
- Ideal for interior or exterior use.
- All products are molded of general purpose polyester resin, with a flame spread greater than > 75.
- Class I or Class II fire retardant resins are available with Upcharge. See Options below.
- Plastic properties conform to Society of Plastics Industry recommendations.
- Products are integrally surfaced with a molded gel-coat of uniform color and thickness.
- Parting lines and trimmed sections are finished to eliminate sharp edges.

Finishes

PPP Color • Hi-Gloss Gel-Coat

- Available in any PPP Color. *See PPP Color Card or Web.*

Tria Models ONLY: PPP Color • Matte Gel-Coat

- Matte Gel-Coat polyurethane post finish in any PPP Color or Matte Metallic finishes. *See Web.*

Natural Aggregate Finishes

- Anthracite, Granite, Sandtone, Taupe or Terra Cotta. *See Web.*

Polished Sub-Surface 'Smooth-to-the-Touch' Aggregate

- Natural stones are permanently embedded inside and below the surface in a high-gloss clear resin.
- Ideal for interior use.

Exposed 'Rough-to-the-Touch' Aggregate

- Exposed aggregate is permanently embedded into the surface of the fiberglass product.
- Ideal for exterior use, the durable aggregate surface is weather resistant, not affected by water or salt and is extremely resistant to abuse.

Note: Sold subject to natural variations in color and texture.

Specifications

Ancora® Laminate Drum Tables are shipped freight class 150, FOB MI.

Shipped by Truck*

Estimated shipping weight does not include 40 lbs. skid weight.

All table sizes are nominal. Call for exact size if considering making your own top!

Core Material

Moisture resistant fiber, spiral wrapped with ¾" particle board or solid wood top.

Bottom end-cap painted black. Includes adjustable foot glides.

Laminates

Prices for standard Formica, Nevamar, Wilsonart or Pionite finishes, including all solid color textures.

For 2 laminate finishes per table, add 10% NET upcharge.

For non-standard or custom laminates, please submit your requirements for availability and price.

Laminate Tables with Radius or Beveled edge are wood edge only. Select PPP wood finish.

Top Selections

Marble & Granite

All marble & granite tops are ¾" thick, polished, with eased edge, flush with sides. Increases overall height ¾".

Due to natural variations in color and veining, over which we have no control, stone & marble products are sold subject to irregularities and/or variations in color, veining, texture and surface.

Color illustrations may vary from the actual stone product due to printing limitations.

For color illustrations: *see PPP Website.*

Avonite®

Matte finish, ½" thick, eased edge, flush with sides. Increases overall height ½".

Plinth Option

Recessed black laminate plinth with adjustable foot glides.
